A stylish privacy and ventilation system

Terraçade baguettes can be used for both practical and decorative applications on building façades. The system can be used to provide privacy screening, permanent ventilation and shading or simply to apply a stylish finish to any residential, commercial or industrial project.

The product can provide screening on multi residential balconies, across windows on office buildings or act as a decorative element for front offices in industrial complexes. The sleekline look provided by the Terraçade baguettes is also perfect for residential pergolas, beer gardens, pool areas, and outdoor seating areas providing a modern shading and privacy solution. The applications of this product are endless.

Terraçade baguettes come in a range of six stylish, natural colours.
